MAUÁ BANK

CALLE CANGALLO, Nos. 101—103.

INTEREST FOR CURRENT MONTH.

IN ACCOUNT CURRENT, SPECIE.
For balances in favour of Customers ... ... 6 per cent.
For balances in favour of Customers ... ... 12 per cent.
Deposits for a fixed term in specie or currency, at conventional interest.

P. P. MAUÁ & Co.
WILLIAM LESLIE.

MAUÁ BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing ordinary or current money against which they may draw up to an agreed limit, on conditions which will be published in the usual manner.

Fourth—Money received in account current, bearing interest from day of deposit, which is accumulated in favour of the parties every three months, the depositors being at liberty to withdraw the whole or any portion of the full amount at the end of each term, when interest for the days three hundred dollars or one hundred thousand dollars currency, in which case the usual banker previous notice required to be given at the Treasury of the Bank.

Fifth—Bills of Exchange at sight on London, Paris, Montevideo, Rio de Janeiro, Bahia, Pernambuco, Rio Grande, and other places in the Empire, and Asuncion, Paraná, and other places of which notice will be given hereafter.

Sixth—The Bank undertakes and negotiates all ordinary transactions within the circle of banking operations.

The establishment is open daily from 10 to 3 o'clock.

P. P. MAUÁ & Co.
WILLIAM LESLIE.

"All falsi audeum nil veri non audeum dicere."—*Cicero.*

WEDNESDAY, JULY 20, 1864.

THE GREAT AUTOMATON.

There is a machine in this city which is worked on wheels and spring—it is purely an Argentine invention, as we can hear of nothing like it in any other part of the world. Like the 'valde in fondo,' it has neither top nor bottom, and yet, at times, works well. It is popularly known in Buenos Ayres as the Great Automaton.

This celebrated machine works beautifully when well oiled and kept in proper repair; it is, however, very slow and remarkably expensive, costing the present proprietor 300,000 patacons a year to maintain, and is of such fragile mechanism that the least thing sets it out of order. When well managed, a little slip of paper put in at one side turns out in a few weeks to be a Steamboat or a Railway Company, but so exquisitely intricate are the wheels and wires that if the manager omits to give a proper number of pulls, just at the proper moment, the little slip of paper referred to gets jammed up in the machine, and it often takes weeks and months to get the Great Automaton in working order again.

When it once goes wrong it is as dangerous as one of the infernal machines in Charleston Harbor, and at such times it can only be managed by the head proprietor.

This celebrated machine was first exhibited to the people in May, 1862, and worked pretty well the first year. Unfortunately, in the year 1863, owing either to the fault of the machinery, or some parties pulling too hard at the wires, an accident occurred, and an old and respectable Cordovese gentleman was seriously hurt. In consequence of the accident the Automaton got out of order, a piece of paper numbered 2 caught in the machinery, and the result was, not one half of the work contracted for by the proprietors was finished in time.

In May, 1864, the machine was removed to a large and capacious building. The head proprietor having taken every possible care that the machine was in first rate order before put in motion, the first slip of paper put in came out a splendid address, which so pleased the public that high hopes were entertained of the great utility of the Automaton, notwithstanding the heavy expense; but we regret to say that the machinery has been completely put out of order by the incautious tricks of an old gentleman. As we said before, the Automaton is so constructed that it will only receive a small slip of paper at a time, and we regret to say that the hand reared to it was caused by a gentleman trying to pass a small volume of Montesquieu over the wires, in the hope that it would turn out in a few weeks to be a Cordovese Minister of War. As a matter of course the attempt failed, and so great was the accident that it shook the whole building.

We heard the other day that the Automaton was at work again, but there seems to be something wrong with the motive power. A piece of paper named 'Sardana,' put in since the last accident, and which was confidently expected would turn out 50,000 gold sovereigns, has proved to be a mushroom. Another slip inserted, for a steamboat Captain, and which it was hoped would turn out eleven new English steamboats, has come out just as it went in.

In view, therefore, of the constant accidents, enormous delays, and heavy expense, we think the Great Automaton requires an alteration in its machinery. We hope some Argentine Ericsson will either remodel the Automaton or invent a more powerful machine.

One of the most expensive peculiarities about the Automaton is that the wires are left out too early in the evening, and steam cannot be got up the following day until the afternoon, besides, although it is under a good roof, it is found to be perfectly useless in wet weather.

The head proprietor and engineers in charge of it seem to understand the machine thoroughly, and we are strongly inclined to think that if they put their heads together they could make it work freely. Last year the wires were oiled by the contractor for the job a week. But this year the head proprietor has omitted this precaution on the consequence is, that every day the wires get worse, and it will not be long before it makes a most horrible noise, and the wires don't pull so easily.

Our readers will recollect the great noise some few years ago the celebrated chess-playing Automaton created in Europe, beating every opponent, and yet failed in every other respect. If due care was taken of the Automaton in this city we have no doubt it would lead to like results.

MR. EDWARD A. HOPKINS

Nothing is so distasteful to the general reader as to hear every shout some individual, after the manner of Argentine journalists, holding him up as a most wonderful patriot or unequalled scoundrel. At times, however, some turn of events brings a man prominently into play, as is now the case with the subject of these lines.

About a year ago Mr. Hopkins was named Argentine Consul-General at New York, and proceeded to that city via England. His active and enterprising spirit gave no time to forget that he would notably further the interests of Buenos Ayres in his native country, and we looked confidently to his efforts, for the establishment of a new line of steamers between N. York and the River Plate. The last mail brings us the disagreeable intelligence that he has not been recognised by the United States Government. This is the second time such a slight has been put on President Mitre's administration, the same having happened with D. Hector Varela at Paris. It is, however, the least part of the injury, for the real misfortune is, that we cannot find another so suitable to take Mr. Hopkins' place. This country is in general miserably represented abroad, and of the whole batch of Consuls only half a dozen are good men, the rest hardly knowing where Buenos Ayres is. Mr. Hopkins has 20 years' experience of the River Plate, and possesses talents of that untiring order which are exactly required to make these countries known in the great centres of industry and population. His rejection by the Cabinet of Washington is of course owing to his unhappy quarrel with Paraguay which ended in the acknowledgement on the part of his Government that he had acted amiss, and that his claims against President Lopez were untenable.

But if the Argentine Government find a difficulty in getting as useful an agent to succeed him, there is still a field where Mr. Hopkins would render immense service, and that is Great Britain. By sending him to Dublin as Consul general, with a salary of 5,000 dollars per annum, we will guarantee an immense gain to this republic. He is not a man to spend the day smoking in an easy chair or lounging at the Clubs. We defy the statistics of any city, save one in Dublin would be talking of Buenos Ayres, he would keep the attention of the people of Europe directed to the River Plate, and his lectures at every town in Ireland would fill the people with golden dreams about this country, and he would succeed in what the emigration of farm servants and the humbler classes, he would induce humbug and money-lenders to embark for this country, which only requires to be known in order to draw thousands thither.

Let us suppose we should gain by 1,000 emigrants annually. Several Irishmen recently arrived have brought capital up to £5,000, to commence sheep farming; but taking the average at £50, we have an influx of capital amounting to £50,000. In a few years there is a duration. If Argentina averages $7 per head, so that 1,000 immigrants will increase our revenue by $7,000, more than sufficient to cover the salary and expenses of the mission we propose.

At the present time when 12,000 Irish are leaving their homes monthly it would be both easy and advantageous to turn a small current of the stream of emigration to this country. The effect of this purpose it is absolutely necessary to employ an active and talented man who knows something about these countries, and for this we suggest the name of Mr. Edward Augustus Hopkins is not the most suitable: he is moreover grandson of an Irishman, and the post we suggest would be a graceful compensation for the disappointment he has sustained.

EDITOR'S TABLE.

The 'Reforma Pacifica' of Montevideo has started a 'Mesa de la Redaccion.' This is the third paper which has taken the hint from the 'Standard.' First, the 'Progreso,' second, the 'Tribuna,' and now the 'Reforma;' but none of our colleagues comes up to our *standard*.

In Montevideo they say that Dr. Requena was most hospitably received in Buenos Ayres: that the moment he landed M. Elizalde waited on him. It is also said in that quarter that President Mitre, Senor Mariano Billinghurst, and Mr. Saravia had a rather heated discussion over Oriental matters; that when the President heard of M. Saravia's ulterior views, he was amased, *stetterunt comæ, voz faucibus hæsit.* Of course, we cannot say what truth there is in the rumour, but this is the talk in the Mount. Meanwhile a Brazilian paper, called the 'Spectator,' pitches into all the River Plate Republics, in the most unrestrained terms, and says, that if President Mitre joins with Brazil in the armed intervention, 'he will make himself the instrument of a conquest, which subsequently he will have to fight against.' These are the sentiments of the Brazilian press. It would seem that the Brazilians would prefer to be left alone. Don J. C. Gomez, it is said, protests in the loudest manner against Argentine intervention. Our candid opinion in the matter is, that any intervention or invasion by Argentine troops would be a fatal step, not looked for consequences. We were all in love with Flores when he made the revolution; if one is not taken, we shall be all in love with the curse him before he becomes President.

The correspondent of the 'Reforma' also gives the report that Benzi has agreed to lend President Mitre four millions, on condition that there is to be a war with Paraguay. As there is not a word about this in Buenos Ayres, we mention it merely for the purpose of contradicting it as we believe it to be a mere fabrication.

Mr. Lonas is again at the paper dollar. It is generally believed that this gentleman's views on the currency question are more practical than the visionary Mr. Anten. We have great hopes that now, since one of the leading Porteño merchants has taken such an interest in the matter, that he will keep pounding away until Governor Saavedra and Minister Irigoyen engage to find it on a basis they must either shut up the Bolsa, or put a fixed value on the paper dollar.

The new market which we heard was about to be started in Calle Cangallo is likely to prove a complete failure, as the Municipality demand for the privilege the sum of 100,000 dollars.

The communication respecting the Foreign Club emanates from the pen of a leading member of that society, it will be found in another column.

The rage for changing the names of the streets seems to have died out in town, our leading politicians having now their attention taken up in dividing, splitting up, and dividing the parties in the camp. A general assembly of Buenos Ayrean is to be held under the Governor; people thought that it was to remedy the currency, or to devise means for stopping the crime and riots in the camp, or to compound for the kind: if the plain truth be told, it is simply to create the new parties of Saavedra, Acosta, Dominguez, and a few others attention to which the Argentine democrats awake from this miserable trifling of the public time and attention to which the Argentine democrats awake from this miserable trifling of the public time and attention to which the Argentine democrats awake from this miserable trifling of the public time and

MARITIME NEWS.

The steamer Paraguay was to leave Montevideo for Liverpool on the 18th inst. The McLeod, from Montevideo, arrived at Calcutta on May 8th, but was aground for two days at the mouth of the Hooghly, and had to be put into a dry dock for examination. The Quentin Mestys, from Buenos Ayres, arrived at Simon's Bay, Cape of Good Hope, on April 25th. She was ordered for Akyab, and having sprung a-leak, unloaded cargo to undergo repairs.

VESSELS SPOKEN.

Railways of the United Kingdom.

There are at present working in Great Britain and Ireland 275 Railway Companies, with 11,600 miles open to traffic. They carry eighty millions of passengers per annum, and thirty millions tons of merchandise, employing a staff of 200,000 persons.—[*Public Opinion.*

Important for Sr. Bilbao

We commend to the attention of our talented friend Sor Bilbao the following startling news which we received per last packet.

A HIGHLY IMPORTANT, RUMOR REGARD-ING NAPOLEON III.

A Paris rumor, quoted by the London Globe, "insists on the existence of a secret article in the Conventions between the French and the Mexican Emperors, in virtue of which, previous to the final evacuation of the Gulf by the legions of Gaul, they are to be concentrated towards the Pacific, and put in occupancy of the Sonora district including the harbor of Acapulco, ostensibly as a reserve force in case of aggression from the United States, but in reality to lay a ground work for permanent annexation to draft off that metalliferous tract which will in due time Governments in succession have never hitherto turned to account. There is sufficient plausibility in the scheme to warrant the 'Journal de Bruxelles' in ventilating it; nor was it at all necessary to review the remembrance of former French adventures in those diggings, when Comte Hussards de Boullon made a dash some years back at them from Lower California. There is already a powerful French establishment over the Island of Jshita. Nothing connected with the Isthmus of Panama has been overlooked by Louis Napoleon. A rich Savoy and Gallic-built sea board looms in no distant future."

The Pope and the Sanitary Commission.

A DONATION OF FIVE HUNDRED DOLLARS

From the 'Buffalo Commercial.'

From the following correspondence it will be seen that a liberal contribution has been received by the General Aid Society in this city from the Pope.

Buffalo, May 17, 1864.

Madam—The Sovereign Pontiff, Pope Pius IX., has, through his Eminence Cardinal Barnabo, notified me that with the deepest sympathy for the most fraternal interest he has heard of the number of gallant soldiers wounded in our many battles, and that he desires me to give in his name, and out of his private purse, $500, as some aid to alleviate their sufferings.

Your truly providentially organized society has done very much to aid our wounded soldiers; hence it seems to me that there can be no better means of accomplishing the Holy Father's pious wish of His Holiness, than to hand over to you this check for $500, with my humble and fervent prayer that the Lord's blessing may not only rest on our gallant wounded soldiers, but also on the honored members of your Commission who aid them so generously.

Accept the expressions and esteem with which I have the honor to be

Your most obedient and devoted servant,

JOHN, Bishop of Buffalo.

Mrs. Horatio Seymour, President of the U S. Sanitary Commission,

General Aid Society for the Army.')

Buffalo, May 18, 1864.

Rt. Rev. John Timon:

Dear Sir—It is with no ordinary feelings we acknowledge the receipt at your hands of $500 from the Sovereign Pontiff, Pope Pius IX., for the relief of our wounded soldiers. Large contributions have been received from foreign countries for this humane object. We are deeply touched by such evidences of interest in our present struggle for national life, and the indorsement of this national channel for our charities, which we believe to be the most direct, humane and efficient one through which the good will of a Christian people can be conveyed to the wounded patriots in field or hospital. Please present our thanks to His Holiness, and accept, for your part, in this munificent act, the grateful acknowledgments of the Society. With sentiments of the highest regard, Yours truly,

MRS. HORATIO SEYMOUR, President.

SPAIN & PERU.

Madrid, June 2.

The steamer San Domingo has arrived at Vigo from Havannah. Her advices from San Domingo state that General Gandara had left for Monte Christi with 6,700 men.

Two Spanish frigates are about to leave for Peru.

A rumour is current that the proceedings of General Pinzon have been approved by the Government.

The Epoca contradicts the statement that opposition has been made to the concession of the 'Credit Foncier.'

It is said that intelligence has been received from Madrid, which would warrant a hope that the dispute with Peru will soon be honorably settled; the Spanish Government having entirely disapproved the recent conduct of their Admiral at Lima.

THE DISPUTE BETWEEN SPAIN AND PERU.—The Vice-Consul of Peru in Bordeaux contradicts in the 'Gironde' the telegraph statement from Madrid, that the Government of Peru is disposed to satisfy the demands of Spain. He says—"This news is completely false. I declare it in the name of the honor and rights of my country. It is only bad faith, and a wish to mislead public opinion in Europe that could have invented such intelligence, and transmitted it by telegraph to the journals of the Continent. I hold at your disposal all the official documents on the Hispano Peru. question, and they prove the truth of the contradiction I now give.'

The Peruvian Government has purchased the Pacific Mail Steamship Company's fine new steamer Quito, for something over £80,000.

Letters from Barcelona state that the Spanish Commander at Montevideo is instructed by this mhil to proceed with his vessels to reinforce Admiral Pinzon, in the Chincha Islands. Should the two frigates from Santo Domingo, the Spanish fleet will soon number thirteen eight men-of-war.

More news from the Chincha Islands

The convicts on the Chinchas, as stated before were set free by the Spaniards and sent to Peco, on the mainland. The Peruvian authorities, wishing to get rid of them, requested Captain Ellis, of the company's steamer Guayaquil, to take them to Callao. They were put on board, one hundred and sixty three altogether, but unchained and with a guard of only fifteen men. The steamer had no sooner left the harbor than the rascals revolted, overpowered the guard, who behaved very cowardly, struck the helmsman, fired at the captain, and would have driven him out the vessel ashore. The passengers were, of course, much affrightened; but the captain behaved himself well, and not lose his presence of mind. At last he succeded in making a compromise with the scoundrels, to put those who wanted to land on shore at Nuevo Mundo, which was done accordingly, and so the ship, crew, and passengers were saved.

TRIBUNA BLUNDERS.

19 July 1864.

Dear Sirs:—

In the 'Tribuna' of to-day there is a most exaggerated account of the defeat of "Hiar Athol," the winner of the Derby, by "Vermont," a horse of French blood, as the 'Tribuna' calls him. In that paper's information "Vermont" is a "Cabale," a very English blood horse, and he was ridden by Flatman, one of our best English jockeys.

"Hiar Athol's" defeat was caused by his running the day after his arrival from England, after a stormy passage across the Channel, having arrived on the course on the very *last* before the race

Yours, etc. SPORT.

LOCAL EVENTS

Official Displeasure—The authorities have forbidden the circulation of the 'Standard,' and for some weeks seized all our mails. They did not like it to notify us of their high and mighty displeasure, nor can we divine the cause, except they fancy we are leagued with General Flores. If so we can but wear it, it is very poor spite, but happily we can afford to laugh at their indignant Excellencies.

Pure of Expallata—The highway of the Cordillera, is now almost impassable, and will effectually prevent all fear of invasion in case Spain annex the Pacific coast. The happy results has been arrived at by suffering the various "cavallos" or hospices to fall to ruin, and thereby compelling the passengers exposed to certain death in either falling over a precipice, or perishing in a snow-storm.

Funeral Rites—A grand military mass took place yesterday at La Merced, the Captain of the Port and a battalion of infantry assisting. We suppose it was in honor of the late Captain Sardi.

Birthday—Monday was the birth day of his Majesty Don Pedro II., Emperor of the Brasils. We understand one of his daughters is shortly to be married.

Conflagration—On Saturday night a fire broke out in the apothecary's store at the corner of San Martin and Corrientes. The fire was got under by persons coming home from the theatre, but it was impossible to save the tills in which the owner had foolishly left $20,000 mje, instead of at the Maun or River Plate Bank.

Last Days of Pompeii—To-morrow we will publish the plot of the operations for the benefit of those who will attend its performance at Colon.

The Press Rights Adjusted—The Bombay, Captain Campbell, carrying the flag of Admiral Charles Elliott, arrived in the Rio Tangeyo, on 27th March (?) 49 days from Plymouth. The Forte, with Rear-Admiral Warren, left Rio for England on May 30th.

Aug. 31st	4000	29

Total sales, 105,787.

The brokers were very busy amongst themselves to-day; patacons closed rather firmer than at the opening. The sale of 16,000 pats., effected yesterday, and which we reported as understood to be sham, we are informed on the best authority was' *bona fide*, the patacons in question belonging to the Government.

In Exchange on England there are a multitude of drawers, first class at 90d., and sellers are very as high as 90d. cash. It is thought that there will be a very large amount drawn for this packet.

There is a sort of Argentine joint stock company being established for the purchase of national bonds; the last purchases made were at 40, but it is not believed that the securities will soon be selling at 75 per cent.

The new Liverpool steamer Galileo (Lloyd's line) was to have sailed on the 20th July.

It is with pleasure that we hear of the great success of the Provisora Argentina. We are told that the insurance company, the shareholders interfere with each other. We understand that this company has recently invested a large sum in real estate in the north part of this city.

Some persons on 'Change to-day stated that the Argentine Government had not declined to receive Sr. Rojido. The only objection it appears which was offered was acknowledging him as confidential agent in room of Sr. Lamas. There can be no doubt however from the tenor of the Government paper that President Mitre's Government does not care one straw as to the future of the Banda Oriental, and that if Conessa is sent over as is said, he goes to demand satisfaction for the insults not to speak of.

The Olden beef question was talked of on 'Change, and merchants wait anxiously to hear how the last shipment sold.

Mr. Lanus' article on the dwindling of the paper money formed also the theme of many articles. This gentleman enjoys a great popularity on the Bolsa, and his comments on the paper money question are endorsed by both native and foreign merchants; his great opponent 'Antenor,' it is rather sarcastically remarked, appears to know more about the Provincial politics than the state of the money market. Mr. Lanus, when he asserts that the paper money is daily becoming less current, speaks the truth—only one will not sell for gold to-day so, and 'Antenor" is incorrect when he contradicts Mr. L.

The wind is strongly against carrying refused to obey the Brazilian Government. We give the report for what it is worth, but don't believe one word of it. We can no more realize to the idea of President Mitre invading the Banda Oriental—they laugh when they say subject is mooted. It is a great pity that President Mitre does not disguise himself some day and go on the Bolsa to hear what is said about the French intervention, and Conessa taking Colonia.

LA PREVISORA ARGENTINA.

LIFE INSURANCE AND SAVING FUND ASSOCIATION OF BUENOS AYRES.

Capital Subscribed in first Three Months, 170,567 pats. in 215 Shares.

DIRECTORS.	MANAGING COMMITTEE.
D. Miguel Azcuenaga, President	D. Estanislao Pena
" Bernabé Ocampo, Vice-President	" J. A. Fernandez
" Antonio Marcó del Pont	" L. B. Wilcke
" Jacobo Parravicini	" Mariano Billinghurst
" Constant Santamaria	" Ladislao F. Martinez

GERENTE.

D. JUAN CASADO,

Domicilio, Buenos Ayres.

The PREVISORA ARGENTINA will receive subscriptions as follows :—

1st. On one's own life, in shares of $5 silver and upwards. These subscriptions liquidated at any time at the subscriber's time and option.

2nd. Without loss of capital by death of the insurer. Subscribers will be entitled to compound interest on their subscriptions and the proportional interest forfeited by the death of other shareholders in their Class, whose capital, however, is returned.

3rd. With loss of capital, by death of the insured. All shareholders of this class shall gain compound interest on their subscriptions, besides a proportional part of the capital and interest of all who die in their Class

All these subscriptions may be paid weekly, monthly, quarterly, half yearly, or yearly.

The capital of the Company shall be invested only in landed property (fincas), and with the greatest security

The Board of Inspection, composed of subscribers, shall have charge of all the operations of the Company.

Subscriptions in Paper Money.

The Directors, wishing to enlarge the operations of the Society, have acceded to the request of many people in this city, and determined to issue shares payable in Paper Money of Buenos Ayres, under the following conditions :—

Article 65—From the 1st of April, 1864, shares shall be issued to such persons as may wish to enjoy in Paper Money of Buenos Ayres, and in accordance with Article 17 chapter 5 of the Statutes of the Society, the lowest sum receivable being $200 annually, payable in one sum, or in instalments, subject to the following rules:

1st—For Paper Money Subscribers sections will be opened and kept separate from Silver Money Subscribers.

2nd—The liquidation of the sums belonging to the sections of Paper Money Subscribers will be administered according to Article 31 of the Statutes, and for account of these particular sections.

By these means the Directory hopes to gain its object, which is to enable the poorer classes to enjoy all the advantages of the Society.

For further particulars, apply at the Co.'s Office, No. 87 Calle S. Martin (altos), where prospectuses and circulars may be had.

49 & 51—CALLE DEFENSA—49 & 51.

SAVINGS BANK.

BANK MAUA & CO.,

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who do not keep one or two Accounts at the Bank to which they are most conducive. The Bank of Maua and Co. in Montevideo has already provided for the wavering classes in that city a safe and profitable depository for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus avoiding themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frauds.

The Bank of Maua and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine am till Three pm on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve p.m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; to the former case the interest will be calculated up to date

The Bank of Maua and Co. is sufficiently known to the Public by the benefit derived from the courses of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Maua and Co. are also persuaded that this new branch of their business will render imminent service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1862.

P.p. Maua and Co.,
WILLIAM LESLIE.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or One Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Since how many deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor of the said sum can open a current account, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

RIVER PLATE STEAM-SHIP COMPANY.

LIVERPOOL AND RIVER PLATE DIRECT.

NAMES OF STEAMERS.

LA PLATA,
PARANA, PARAGUAY,
URUGUAY, UNA.

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 1st of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any port of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

The Steamer URUGUAY, now in port, will be despatched hence on the 26th inst., with a full cargo, calling at Montevideo to coal only. She has a fine large cabin on deck, capable of accommodating thirty cabin passengers, to whom Captain Smith guarantees his usual liberal treatment. These Boats are excellent opportunities for families visiting Europe, more especially when consisting of ladies and children.

For Freight and Passage apply to the Sole Agents,

HENRY A. GREEN & CO.,

Los Trenes pararán en Palermo y Rivadavia solamente en caso que hubiera pasajeros para esas Estaciones. Los pasajeros que deseen ser desembarcados en ellas están en el deber de avisar al Guarda Tren al entrar en los coches. Sin este requisito los trenes no pararán.

LA ADMINISTRACION.

To Rent

A small estancia to the South, about ten leagues from town, area twelve thousand yards in length, by one-thousand in breadth, or one-third of a league in all, with a fine estancia house, stones roof, three puestos, corrales, for sheep and horses, montes, aguada de balde, and everything requisite for working.

The land is excellent, and is watered by an arroyo which never dries. A contract will be given for eight years. Terms moderate.

For sale, one suerte de estancia, or three quarters of a square league, in the partido of the Azul, bounded on one side by the arroyo of the Azul, with excellent pasture land. This estancia will be sold cheap, as the present owner has come into possession of it, in order to remove an old debt, and about to stock it. The titles are unexceptionable.

For further particulars, please apply to
